WE'RE ALL ABOUT SAFETY

CYCLONIC GARAGE DOORS

G2 SAFE V2 CYCLONIC GARAGE DOORS

BUILT TO LAST. MADE TO PERFORM

Colorbond®

PROTECTING YOUR HOME AGAINST THE WRATH OF MOTHER NATURE.

Centurion's range of Cyclonic Garage Doors have been designed and manufactured using the highest quality materials by our team of dedicated engineers. Incorporating a number of our patent and patent pending features, all of our Cyclonic Doors have passed hundreds of hours of testing to ensure that your home and family are protected in the event of an oncoming cyclone.

C2V2 CENTURION'S NEW REVOLUTIONARY GARAGE DOOR

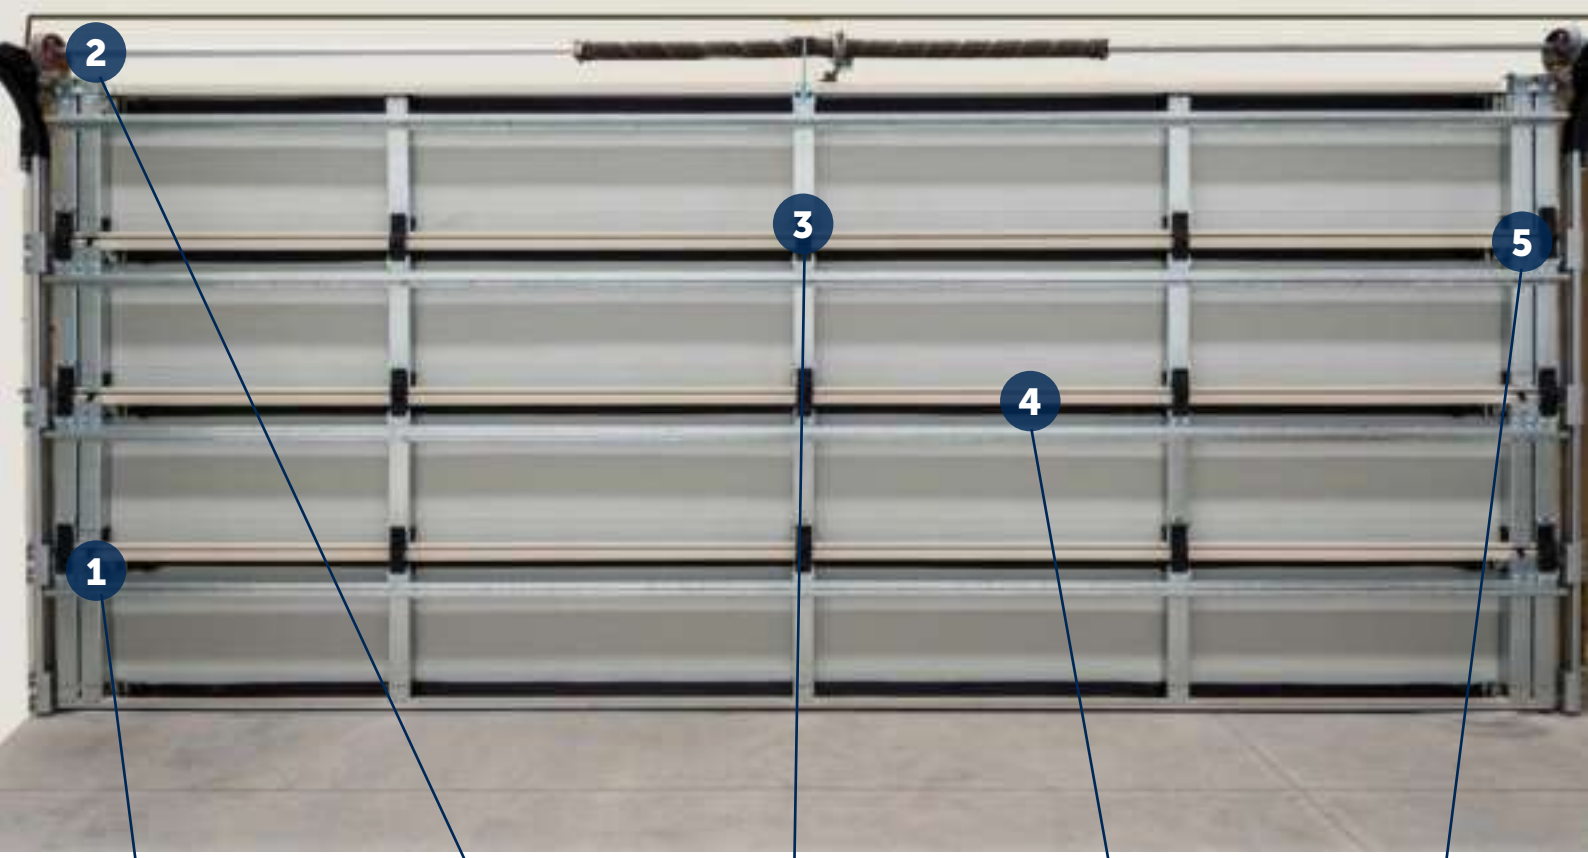
C2V2 is Centurion's latest Cyclonic Garage Door, which has been engineered using advanced lightweight materials to make it safer without compromising on quality or protection. C2V2 incorporates a number of Centurion's patent and patent-pending features to make it the most advanced Cyclonic Garage Door on the market. C2V2 is safe to install in openings up to 3000mm high and 5500mm wide and fully complies with AS 4505-2012 standards.

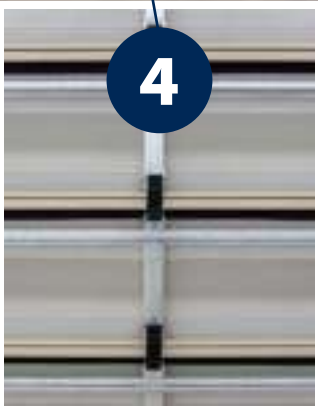
LIGHTER
C2V2 DELIVERS ALL OF THE STRENGTH AND SECURITY AT ¼ OF THE WEIGHT OF A TRADITIONAL CYCLONIC DOOR

EASIER
THERE IS NO NEED TO INSTALL A HEAVY-DUTY OPENER OR VERTICAL POSTS THAT ARE NORMALLY REQUIRED ON CYCLONIC DOORS

STRONGER
OUR PATENT PENDING TECHNOLOGY EXCLUSIVE TO C2V2 PROVIDES THE BEST CYCLONIC RESISTANCE

BETTER
OUR COMPETITIVE PRICES AND HEIGHTENED QUALITY MAKE C2V2 THE BEST OPTION ON THE MARKET





C2V2 FEATURES

C2 SAFE V2 CYCLONIC GARAGE DOORS

1 Our unique C2V2 roller has an integrated wind locking disc that engages with the heavy-duty track retainer, locking the door roller into the tracks hence preventing it from pulling out of the track in cyclonic winds.

2 Centurion's design features a windlock style retainer for the top panel and roller, the only door available with this feature.

3 Centurion's patent-pending high tenancy polyester belt system retains the panel from separation in the event of cyclonic winds. Each of these retainers carries a 2000kg load rating.

4 This polyester belt system runs the full width of each panel and is connected to the door rollers. As the door flexes during wind loading, the belt system helps to form an impenetrable connection between the door and the building.

5 Centurion's unique patent pending track retainer is manufactured from heavy-duty 6060 aluminium extrusion offering superior strength and durability.

CENTURION'S ROLLER DOOR RANGE

Our Roller Doors are designed for cyclone prone areas of Australia. Our Roller Doors are highly installer friendly and include a number of features that provide added strength and durability to ensure your home is protected from cyclonic winds in C2 conditions. Our Roller Doors are safe to install in openings up to 3000mm high and 5400mm wide.

SAFER
DESIGNED AND TESTED TO SURPASS C2 CONDITIONS IN ACCORDANCE WITH AS 4505-2012 STANDARDS.

BETTER
OUR ROLLERDOORS ARE MANUFACTURED IN GENUINE COLORBOND STEEL AND AVAILABLE IN OVER 20 COLOURS

EASIER
OUR ONE-PIECE GUIDE SYSTEM IS QUICK AND EASY TO INSTALL

C2 SAFE CYCLONIC GARAGE DOORS

CENTURION'S ROLLER FEATURES

1 Our wind lock system has been designed to engage with the track guide to prevent the door from pulling out of the track system in high winds.

2 Our heavy-duty aluminium bottom rail and finned PVC weather seal prevents water and debris from entering the garage as a result of cyclonic winds.

3 External key centre lift lock with internal snib for easy manual operation.
